

8:30 am – 4:30 pm

June 2 – 27, 2025 (weekdays)

Soil Health and Agrivoltaics Leadership Training

- * Soil Health and Management
- * Agrivoltaics and Application
- * Leadership and Outreach Skills
- * Sustainable and Climate-smart Agriculture

Healthy soil is the foundation of sustainable agriculture. The 4-wk summer soil health and agrivoltaics leadership training workshop is funded through a USDA-NIFA project to prepare students and agricultural workers with tiptop soil health management techniques, agrivoltaic cropping approaches, and leadership skills through intensive experiential learning and outreach activities and events. Each successful trainee will receive a \$2,400 stipend plus other supports.

Trainee Application

Return the completed form to Dr. Mingxin Guo (mguo@desu.edu)
